BEN SARJEANT

FRONT END DEVELOPER

PROFILE SUMMARY

I am a Front-End Developer with a passion for developing creative applications to solve complex problems. With strong communication and time-management skills, I have been able to thrive under fast-paced, high-intensity collaborative environments. I am an avid camper and adventurer which trickles down into my coding lifestyle where I am continuously learning and exploring new development skills.

DEVELOPMENT STACK

- ✔ HTML | CSS | SCSS
- ✔ JavaScript | jQuery
- ✔ React | Angular
- ✔ Express | Node.js
- ✔ Ajax | APIs
- ✔ Git | SVN | Version Control
- ✔ AEM | Heroku
- ✔ Leaflet | Mapbox
- ✔ Accessibility | Responsive Design

PROJECTS

Transuetieum - A Travel Hub App

MERN Stack | MongoDB | Express | React | Node.js

- On-going transit mapping application designed to showcase and crowdsource a variety of transit data across North America, providing information to users prior to their destinations.
- Inclusion of libraries such as Leaflet, Material UI, and Redux.
- Server deployed with Heroku and front-end deployed with Netlify.
- Development of an API serving over 10,000 data points covering Go, VIA, Amtrak lines/stations.

wstwnd. apparel - A Canadian Apparel Company

MERN Stack | MongoDB | Express | React | Node.js

- On-going eCommerce website dedicated to selling Georgian Bay themed apparel, intended for operational use by the end of 2023.
- Client and server side authentication for user registration.
- Integration of Printful's (print-on-demand) API for product display and shipping services.

WORK EXPERIENCE

Front-End Web Developer

2021 - Present | Rich Media

- Developed and maintained over 20 customer and client facing projects for top Canadian financial institutions, both as the lead developer and as a support.
- Trained and mentored new staff to ensure quality code.
- Engaged in constant collaboration with clients, company managers, designers, and other developers to design and implement new products and features.
- Conversion of design mock-ups and prototypes to accessible, responsive user interfaces.
- Emphasis on web accessibility and user experience.

Residential Contracting Apprentice

2019 - 2021 | Moore Park Homes Inc.

- Worked hands-on to learn and understand the residential construction process from start to finish.

GIS Technician

2018 - 2019 | Planview Utility Services

- Worked alongside small team focusing on integration of GIS solutions for SUE applications.
- Operated as a technical support specialist and aided in the development on a web-based GIS SaaS for major utilty companies.

Director of Canoe Tripping, Section Manager

2015 - 2017 | Camp Hurontario

- Handled all logistical operations and financial planning for single day to multi-week canoe trips, a founding pillar of the camp.
- Trained and managed 40+ staff and organized leadership events for staff and older campers.

EDUCATION

Juno College (Formerly HackerYou)

2020 - 2021 | Web Development Bootcamp

- 600+ hours of coding and 7 projects over 10 weeks full-time.
- Covered industry standards and best practices when it comes to mastering core front-end web development concepts.
- Focused on developing applications with scalable, reusable, and accessible code.

Fleming College

2017 - 2018 | Graduate Certificate, GIS Applications

- Post graduate program covering wide range of GIS fundamentals.
- Notable Subjects: Web-Based GIS, Python, SQL & Database Development, Spatial Analysis & Remote Sensing, ArcGIS Product Suite.

University of Guelph

2013 - 2017 | BA, Specialized in Geography & Geomatics.
